“We are very happy to be working with GTS. The EdGE platform has been seamlessly integrated with our own existing back office management system to provide customers a broad array of new titles ideally suited to complement both our sports, casino and poker products”, quotes Andy Dymock, Casino and Games Marketing Manager at Victor Chandler.

The GTS EdGE is platform is a cost effective and easily integrated games engine that allows operators to manage and operate their games with ease. The enhanced EdGE Back-office (ICE) delivers many functional and performance enhancements to Victor Chandler including improved player management tools, support for games marketing campaigns, report customisation and much more in an improved user interface that is both practical and easy to use

“Victor Chandler is an established name in the gaming market and we are delighted to be working with them”, quotes Steven Matsell, Director at GTS PLC. “Their choice of the EdGE platform is testimony of the success of the games engine and the future proofing that GTS can provide in this growing arena.”

The EdGE platform has now been integrated with a number of the world’s leading online betting companies and GTS continues to develop and improve the technology daily. GTS has promised further announcements in coming weeks detailing the continued success and delivery to new clients.

About Victor Chandler

Founded in 1946, the Victor Chandler business continues to enjoy rapid and sustained growth as it approaches its 60th year of operation. Victor is the third generation of Chandlers to run the business. His grandfather, Victor Chandler senior originally set up the company by building Walthamstow Greyhound Stadium in North London. His father expanded the business further by setting up a chain of 40 betting shops around the United Kingdom. The Chandler Group now has customers in over 160 countries, employs over 500 people worldwide and has extensive operations in the UK, Europe and Far East.
